I left you a phone message with this request, but am also sending you an e-mail to the same effect. I know you are meeting with your client today and hopefully can get a commitment that it will not destroy any of the records on July 1, 2008 and will not do so, if at all, until this matter has been resolved. I would also like to know whether your client will honor releases for records if the release complies with the requirements of the federal regulations. You indicated to me that it was your client's intent to retain possession of the records for which it had received a release authorizing it to release records to the Board of Nursing in response to its letter of June 23, 2008. Is that still your client's position? If so I will renew the motion today in order to prevent the destruction of the records and any interruption in the provision of services to the nurse clients. I don't know what time you are meeting with your client but I need to hear from you by 2 p.m today.
